

# 4117 | Auburn

## 4' Linear Vapor 4.92" Wide

Engineered for durability and versatility, the Auburn 4' Linear Vapor Tight fixture delivers dependable illumination in both interior and exterior environments. With selectable wattages (30W, 40W, 50W) and color temperatures (3500K, 4000K, 5000K), this 4.92" wide linear light allows you to fine-tune performance to meet the demands of a wide range of applications—from warehouses and parking garages to commercial utility spaces. Its rugged polycarbonate housing provides superior protection against moisture, dust, and impact, making it ideal for harsh or high-traffic environments. Compatible with AC120-277V, this energy-efficient fixture combines high lumen output with a sleek, low-profile design, ensuring powerful and reliable lighting where you need it most.

ETL listed. Rated for use in wet locations. 80CRI. Dimmable  
1-year limited manufacturer's warranty.
