

1 Gang Blank Wall Plate

Model No: 7702

Description

The ENERLITES polished brass blank metal cover plate is designed to fit over unused wall outlets to close the opening and cover any exposed wires. Made from 404 stainless steel and plated with a brass coating, this blank wall plate is non-combustible and offers both heat and corrosion resistance. This makes the metal cover plate perfect for both commercial and industrial locations, such as kitchens, restrooms, hospitals, or machine shops. The blank metal outlet cover also comes with a set of polished brass screws to match, ensuring a clean and modern appearance in any application. This metal blank switch plate fits any single-gang outlet and is designed for quick, easy installation.
