APPLICATIONS

Make a bold statement in your space with this dramatic geometric shaped linear line of light. This fixture is ideal for general lighting applications in both commercial and residential applications for circulation spaces, high impact areas and residentially over tables, kitchen islands and home offices. A unique, mechanical joiner bracket in conjunction with our special tool allows for assembling channels together with no light leak and a clean connection.

Anodized Aluminum Channel is lightweight, has small dimensions and dissipates heat well; designed especially for the flexible LED tape. Highly tooled plastic end caps screw onto the aluminum channel and protect the channel and LED tape from dust, keeping the LED tape in clean and optimum condition. Snap-in flush frosted lens is specially formulated for smooth illumination of the LED tape.

FEATURES & BENEFITS

- Easy Installation
- Innovative anti-lightlead clips in the space between diffuser and end-cap
- Aluminum channel
- Integral wire harness
- L₇₀ life > 50,000 hours
- Operating Temperature -20°C to 55°C
- Min CRI 80
- Suitable for dry and damp locations
