

Features and Benefits

The Dusk to Dawn Fixture of the future is here! Utilizing a single source LED, this dusk to dawn provides prismatic-designed light output for any environment. It comes with NEMA approved Phototcontrol (dusk to dawn lighting) which used with LED provides significant power savings. This luminaire consumes 40-45W to replace 100W MH light. Maintaining all the strengths of the traditional dusk to dawn fixtures (such as installation brackets and arms) while utilizing the latest generation of LEDs, this LED dusk to dawn will last for years to come. Only on when light is absent to illuminate the darkest of nights .

model D2D

LED Dusk to Dawn
Powered by **CREE**™
5 LED

Highlights

- UV resistant powder coat finish
- Input power - 45 Watts
- Photocell Included
- 3 Year Warranty
- Mounting Arm Included
