

Wireless Home Automation In-wall On/Off Switch with Interchangeable Face Cover

Model No: WF15S

Description

Smart Wi-Fi In-Wall Switch. Control your lights and small appliances from a mobile device and the ENERWAVE app. Schedule your lights, run a timer, create scenes, or check the On/Off status to monitor and save energy. Activate and use voice commands on Alexa or Google Assistant (sold separately) for hands-free control.

Features

- Replaces a standard 120VAC, 15Amp wall switch with a technologically advanced Wi-Fi switch that can be manually controlled at the device or remotely through Enerwave Wi-Fi App.
- Customize and save scenes, set schedules, run timers and use other advanced features; create an “away” scene to randomize light schedules for added security while on vacation.
- Manual and Remote ON/OFF control of any connected lighting.
- Reduce energy consumption and enjoy Wireless Home Automation.
- 3 Interchangeable Color Face Plates included (white, light almond, and black).
- Enhance the value and technology of your home.

Testing & Code Compliance

- UL listed, NEC and FCC compliant.
