Wireless Home Automation Control Smart Single Relay Switch Module

Works behind the scenes
Small but powerful design allows installation within junction box and converts your regular switches into Z-Wave Smart switches.

Model No: ZWN-RSM1-Plus

Description

The ZWN-RSM1-PLUS utilizes Z-Wave technology to provide full control of the connected device from your Internet Browser or Smart Phone App. It is fully compatible with other Z-Wave devices and can be added to most Z-Wave compliant controllers. Installing a smart Z-Wave relay in conjunction with a standard switch is a simple way to modernize your home by adding programmable lighting control to your smart device.

Features

• Work with existing light switches, required neutral wire.
• Slim size module with build in Z-Wave plus technology.
• Z-Wave Plus products are fully backward compatible.
• 67% improvement in range and 250% more bandwidth.
• Remote ON/OFF control and/or manual wall switch of any connected lighting fixture.
• Wireless Z-Wave Plus technology mesh network for command and control interoperability with other Z-Wave compliant controllers.
• Enhance the value and technology of your home.

Specifications

Color	Black
Voltage	120-277 VAC, 50/60Hz
Max Load	10 Amp
Signal Frequency	908.42 Mhz
Size	1.63'' x1.64" x0.72"
Range	Up to 100 feet in open-air and line of sight distance, depending on obstacles and blocks
Operating Temperature	32°F – 104°F (0°C -40 °C), Indoor Use
Warranty	2 Years

Standards & Compliance

Z-Wave Certified, FCC Part 15, Class B
